Member Access

The system is unavailable from midnight Monday through Friday and midnight till Saturday of the month. It is available at all other times unless unscheduled maintenance is required.

Welcome to "Member Access", a place where you have all the tools you need to plan your retirement and view your personal data – all in one secure reliable web site.

As a TRSL member, you may access your personal retirement account after a one-time registration process using your user ID and password. Once authorization to access the web site is established, you can view your personal data such as: beneficiary designation, years of service credit, salary reported, and contributions withheld from your paycheck.

NOTE: Only TRSL members or retirees, or individuals legally authorized to act on their behalf are permitted to establish online access to member or retiree personal accounts. All other individuals, including TRSL benefit recipients, such as beneficiaries, survivors, or ex-spouses are not have authorization to establish online access in the name of a TRSL member. TRSL benefit recipients may seek authorization to establish online access to their own personal accounts.

As an active member, you can use our benefit estimate calculator preloaded with your current data to create a benefit estimate, change your name, change your address, and apply for retirement.

As a retiree, you can view your benefit history, view and print your 1099R tax documents, and view your federal income tax withholding.

From the log-in screen, you can register for access or recover your user ID and password.

NOTE: Make sure to register using your personal email address so that you can access your account even if you change employers or retire.
